Subject: RE: Do you have a way to check if South Coast Rule 3008 was previously sent to EPA for Title V inclusion?
Attachments: CA APR 22 2011-Y30063007-0001.pdf

Hi Stephanie,

Rule 3008 was submitted as a SIP submittal, along with all the other 3000 series rules. All the other rules were withdrawn, but Rule 3008 was not withdrawn as a SIP submittal. The other rules were resubmitted as a Title V program revision, and acted on. Rule 3008 was not listed in that Title V action, so it was not part of that Title V program approval. This makes sense, since if it was listed as a SIP submittal, we would not have included it in a Title V program approval.

Laura

Hi Laura,

For the life of me, I can't find my notes regarding our conversation about South Coast's Rule 3008, *Potential to Emit Limitations*, except the email I sent to Carol which was that the district doesn't need to include any Title V submission language because it is not a Title V requirement.

However, the District's question is that they want to check if Rule 3008 was previously sent to EPA for Title V inclusion. I am not finding anything that would show that on EPA's website. Do you have a database or hard copy files where you can check for this?

Also, just a heads up that I also gave Brittany Gallivan at South Coast your contact information, but if they need to call you, we would have a conference call with me as well.

Thanks.

Steph
